EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Sokohl on 08/27/07.

1. The application has been amended as follows:

In claim 1, line 2, "recovered digital" has been changed to "recovered VSB digital", lines 11-12, "coupling the phase error signal to a voltage controlled oscillator (VCO) to reduce the phase error signal" has been changed to "reducing the phase error signal via a voltage controlled oscillator (VCO)".

In claim 2, line 2, "combination" has been changed to "said combining".

In claim 5, line 3, "amount before" has been changed to "amount before said".

2. The following is an examiner's statement of reasons for allowance: present application discloses a receiver receiving VSB signal and determining phase corrections on the received signal. Prior art teaches or suggests the limitations, however, do not explicitly teach the combined limitations of comparing a first input signal with a sliced signal to generate a symbol error, wherein the sliced signal is derived from the first signal, the first and a second input signal forming a Hilbert transform pair, and multiplying or combining the symbol error with the second input

signal to generate a phase error, and provide to a VCO in order to reduce the phase error signal.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Gitlin US 4,320,526 teaches a phase splitter providing Hilbert transform pair signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sam Ahn whose telephone number is (571) 272-3044. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
